CRC320 Portable Cone Plant

Exceptional Productivity and Application Adaptability

The CRC320 Portable Cone Plant features the TG320 cone with a large feed opening. The all electric plant fits a variety of layouts and applications and is designed for easy transport on the road or on site. Service platforms with wide walkways allow easy and safe access for maintenance and inspection. The bronze bushing technology of the TG320 cone enables the operator to quickly and easily alter the eccentric throw of the cone, on site, simply by rotating the eccentric bushing.

Standard Features

- TG320 bronze bushing cone with adjustable eccentric throw and multiple liners matches most any application
- 300 hp (224 kW) 1800 rpm crusher motor and drive mounted with crusher on rubber isolated frame
- Oversize cone feeder hopper extension with removable overflow panel and overflow chute
- 42" x 34'6" (1067 x 10,515 mm), 3-ply conveyor belt with vulcanized belt splice and primary style belt wiper driven by a 15 hp (11kW) electric motor and shaft mount gearbox
- Service platforms with elevated observation deck, guard rails and access ladder
- Easy maintenance features:
 - o remote grease lines
 - o ground access cone lubrication module
- Emergency stop buttons on both sides of frame
- Tandem axle spring suspension with eight 295/75 R22.5 tires
- 48" (1219 mm) long lockable side-mounted storage box

Optional Equipment

- Removable CCM™ automatic switchgear panel
- Four 18" stroke leveling jacks
- Four 24" stroke run-on jacks
- Hydraulic Power Unit (Gas, 12V, 24V)
